-Visit the AllChemE web site www.allcheme.org

-ISE (Initiative for Science in Europe) conference in October

http://www.initiative-science-europe.org/ISE_conference.html

-Input to the development of the important initiative European Technology Platform Sustainable Chemistry, with a view to ensuring that it meets the needs of the academic community, as well as the needs of industry. The next stage is to formulate a vision for sustainable chemistry in Europe as the basis for a future Strategic Research Agenda - which could be supported under Framework Programme 7.

-CEFIC would welcome input from FECS giving a view on, and expectations for, sustainable chemistry, and comments and suggestions on the earlier launch document that can be found on the web at

-Obituary Notice

The Division of Analytical Chemistry of the FECS, with great regret, has to inform the community of analytical chemists of the death of their esteemed colleague Prof. Dr. Wilhelm Fresenius, on 31 July 2004, shortly after the 91st anniversary of his birthday.

-Declaration by the Initiative for Science in Europe on the establishment of the European Research Council, published in SCIENCE, 6 AUGUST 2004 VOL 305 PAGE 776.
